## Ustka – always on the crest of a wave...

*Actually, Ustka has always been on the crest of a wave.*

Many facts from the history of this very locality prove that it has always followed the spirit of the times and kept afloat despite the adversities.

Already as Stolpmünde, which means the mouth of the Stupia River, the small fisheries village adapted itself well to become the harbour for the city of Słupsk in the 14th century. In the century to follow, it became the largest harbour of this type in the eastern part of the Duchy of Pomerania. At the beginning of the 19th century, first vacationers appeared in Stolpmünde; they were accommodated in the houses of local fishermen. The town was poetically nicknamed "Pearl of the Baltic Sea". For the following decades, as a result of a growing number of visitors, residential areas

of the town kept developing. The same applied to the harbour: the fishing fleet kept growing, and a shipyard was established.

In the 1960s, profiting of the popularity of company vacation packs, the landscape of Ustka became filled with large holiday centres. In the 1980s, the town officially became a spa resort. Today, the little town is nicknamed "the summer capital" of Poland and is well-known all over Europe. Tourists and patients alike visit Ustka all the year round. Everybody can find here what he or she needs: solace, relaxation, medicinal procedures and healing climate together with grandiose walking, kayaking and biking paths, as well as broad, sandy beaches and the waves of the Baltic Sea.

**15 years of Local Tourist Organisation “Ustka i Ziemia Słupska”**

The centre of the present-day town developed where medieval sailors and fishermen settled their oval village. This oval shape can still be found within the boundaries of Marynarki Polskiej and Czerwonych Kosynierów streets.

The heart of the ancient village was Saint Nicholas Church, consecrated in June 1356 by a bishop who travelled to Ustka from Kamień Pomorski specifically for this purpose. It is rumoured that the church tower doubled as a lighthouse. There are many mentions in chronicles that miracles happened there in 17th century (including, for example, self-ignition of candles). For more than 5 centuries, inhabitants of Ustka and various castaways were buried in the graveyard around this church. Nowadays, this place is named John Paul II Square. Formerly it was called "Captain Backstreet". In 1886, a larger church was built on a dune outside the settlement; the small church was then disassembled and its furniture moved to the new temple.

The old settlement is now being subjected to regeneration procedures. As in the past, it starts being filled with fishermen's timber framed wattle and daub houses, after which the whole Pomeranian region is often nicknamed the "the Checkered Land". Wooden dark balls form a skeletal structure, and the spaces in-between are filled with straw and clay, and bleached with lime. In Ustka, the most beautiful example of this type of architecture is Captain Haase's House in Czerwonych Kosynierów street, where the Baltic Cultural Centre is currently located. From the "P.H." inscription above the door we can infer that Peter Haase built this house in 1804.

### Harbour

The harbour in the mouth of the Słupia River existed already in the Middle Ages. The city of Słupsk bought

it in 1337 for a pair of shoes, which was to be given annually to the Święca family, the previous owners of the harbour. Formerly, the wharfs were wooden. The two 400-metre long piers were built in the 2nd half of the 19th century from stones brought from Sweden. The harbour in Ustka flourished at the turn of the 19th century, when steamers dominated

Timber framing of the Kosynierów St.

ed. It is exactly this period that the construction of the lighthouse dates back to, a marvellous vantage point from which a beautiful view of the town and its neighbourhood can be admired. In the yard in front of the lighthouse there are rails from 1914 and fragments of wooden ships recovered from the harbour channel. The harbour granaries and storehouses are also interesting. The oldest is the red building on the eastern side, now housing a restaurant, a disco, and the House of Creative Work. "Tawerna Portowa" restaurant runs its business in one of the grain houses of the former Geiss Company. These buildings still remember ancient wooden sailing ships.

The landscape of the western harbour channel is dominated by a grey grain elevator with a small wharf crane. Grain was reloaded here directly into

ship cargo holds. A spirit warehouse able to house 2.5 million of litres was built on the western side between 1886-1888. Tankers from Hamburg kept coming to Ustka regularly to collect these goods.

### *Promenade and residential district*

Construction of the Słupsk-Ustka railway and railway station in 1878 caused hundreds, and later – thousands of vacationers to come to Ustka in the 2nd half of the 19th century. The station itself is exceptional because the switch room is downstairs and the cash desks and waiting room are upstairs.

Around 1875, the seaside boardwalk was constructed for visitors. Remnants of 19th century restaurants and an arbour for musicians playing for walkers can still be found there. The boardwalk has been prolonged a couple of times. Now, it is about a kilometre and a half long. It bursts with life in high season. [www.promenada.ustka.pl](http://www.promenada.ustka.pl)

In the newer part of the boardwalk, you can find Irena Kwiatkowska's bench. This actress kept coming to Ustka for many years and was often sitting on a bench of the promenade. Close to the park you can find a monument of Frederic Chopin, designed by Ludwika Kraskowska-Nitschowa, author of the Mermaid of Warsaw. There are also two beautiful specimens of black pine with tops formed by wind into the shape of a flag. In the part of the park adjacent to Kopernika street, there is a bronze statue of a "Dying Warrior": a naked, fatally wounded man. He is holding a shield with Ustka's coat of arms. The monument commemorates 76 German inhabitants

of Ustka who died in World War I. The author of the sculpture, which was unveiled in 1922, was Joseph Thorak, who later became Adolf Hitler's favourite sculptor.

Kopernika, Chopina, Żeromskiego, and Mickiewicza streets mark the boundaries of the ancient residential and pension district which started growing east of the medieval settlement in the 2nd half of the 19th century. One of the most beautiful buildings is "Villa Red", presumably designed for Otto von Bismarck, the Iron Chancellor, who sojourned in Ustka many times. It was built in English Gothic style; in its backyard, a former stable is preserved. In front of the village you can admire Araucaria araucana, a tree which – due to the shape of its

### *Solar bench on the Beachside Promenade*

Not only can you sit on the solar bench in Ustka but recharge your mobile phone or use free internet connection as well. If you need to recharge your mobile device you have to use your own USB cable but choosing „Ustka na Fali” hotspot is enough to connect with free Wi-Fi.

Interesting feature of the solar bench is the heavy weather resistance, it works in temperatures between -20 degrees and 50 degrees Celsius. The strength of the photovoltaic panels is 80W, battery capacity 22 Ah and it can work for 72 hours without sunshine. Because of this project, Ustka - in keeping with its nickname of "the town of the wave" - joined the cities around the world which focus their development on being a Smart City.

branches – is commonly called the monkey tail tree. This evergreen species from South America is very rare in Poland.

More information about the monuments in Ustka is available at [www.zabytki-ustka.pl](http://www.zabytki-ustka.pl)

### *Town hall, church, cinema*

The structure that houses the present day town hall was erected in 1911 – 1912. In the past, the building housed a school. It was designed for Ustka for free by Mr Engelbrecht, a construction counsellor who often came here for vacation. The inhabitants returned the favour by offering him silver tableware.

Next to the town hall you can find Saint Redeemer Church. Its interior, kept in Gothic Revival style, was made of wood in the second half of the 19th century by Franz Draheim, a carpentry master and great philanthropist, who in his will endowed the poor children of Ustka with all his goods. In the church, above the altar, you can see a cross, brought here from Saint Nicolas Church, and a stained glass image of Jesus pulling drowning saint Peter from the deep water. Votive images funded by families of sailors who "left for eternal watch" are a peculiarity of this church. The oldest date back to 17th century.

The "Delfin" Cinema is a German architectural classic of the Hitler era. It was constructed in 1936 as a cinema-theatre intended for, among others, Luftwaffe soldiers from a garrison which was being created in Ustka back then. The very building is modelled upon... the Berlin Reichstag. The cinema owes much of its grandeur to the row of six columns along the façade. Recently, the cinema has been renovated, and new equipment has been installed here. Cinema owners will be only too happy to guide you through the building and show you the old film projectors. Celebrating its 80th anniversary

this year, the cinema in Ustka is one of the oldest still functioning cinemas in Poland.

In the summer season, the cinema mostly screens current blockbuster movies. Off-season, you are welcome to watch the films screened by the Film Discussion Club. Apart from the intimate cinema, the building also hosts a guest house and a music pub, in which concerts are frequently organised.

### *Western Ustka - the region of ghosts and soldiers*

Already in the 19th century, German army exhibited a liking for areas west of the harbour. These unpopulated dune areas stretching as far as Darłowo served as a training area for Blücher's Słupsk red hussar regiment. Then, before World War II, barracks for 7.5 thousand soldiers (today's

*Interior of Saint Redeemer Church*

Navy Training Centre) and a large anti-aircraft artillery range were located here. West of the harbour, where a male bathing beach was located in the 19th century, the Germans also constructed the "Blücher" Anti-aircraft and Barrage Battery. Four reinforced concrete cannon posts for 105 mm cannons, a command post, and an engine room where a power generating unit was located have survived until today. "Ustka Fortress" Historical Theme Park is now operating here. Scenes from German soldiers' lives have been depicted very realistically in

Ustka's attractions also include bunkers constructed in the Stalin period; the forests in the western part of the city are teeming with them. Behind the barracks there are facilities which used to belong to the former Stalinist 9th "Ustka Lędowo" Permanent Artillery Battery.

Near the broad western beach, there are virgin areas with beautiful dunes, forests, and remnants of former bogs and lakes. Another picturesque landscape, shrouded with legends and nicknamed "Ghost pond", is located near the railroad tracks, next to Osiedle Kościelniaka residential area and Uroczysko street, whose name can be translated into English as "secret forest". It is rumoured that

wharf", penetrating the sea by almost 200 m, and located about 1 km west of the harbour. Originally, it was designed as a 1.7 km long wharf, but its construction was abandoned in 1939, when World War II broke out.

# Eating out in Ustka

The culinary traditions of Ustka are twofold. The earliest ones date back to the times of the harbour settlement of sailors and fishermen. In the 18th century, there were almost sixty abodes here, including as many as six taverns. This proves that the catering industry in Ustka, based on fresh fish and beverages, enjoyed great popularity even back then.

„Dożynki Rybne” – Ustka Festival

The second eating out trend in Ustka is connected with the summer resort function of the settlement. Since ca. 1800, vacationers have been coming to Ustka each year. One of them was Otto von Bismarck, a refined gourmet. The iron chancellor loved smoked eel and salmon, marinated herrings,

and even sea-gulls' eggs. He could savour all these delicacies during his vacations in Ustka.

## At the beginning there were the fish

Let's be frank: the dish most popular in Ustka back then was flounder boiled with potatoes in a single pot. A guide to German Baltic Sea bathing resorts, which was published in 1908, read that compared with Kołobrzeg or Sopot, "prices in Ustka are moderate" and "the tone is simple". In the 20th century, the situation began to change. It is already during World War I that the fame of the smoked sprats of Ustka reached France. Today, Otto Von Bismarck would have more than a hundred dining places to choose from: restaurants, fish-and-chips shops, as well as pizzerias. A similar number of cafes, ice-cream parlours, wine bars, and a teahouse with an art gallery in Marynarki Polskiej street need to be added to the list.

A couple of restaurants have been operating since pre-war times. These include the "Pod Strzechą" inn in the main street. Today, the inn offers traditional Polish cuisine and good beer. Situated in Darłowska street, "Stara Pierogarnia" – with its traditional recipes – is also worth a visit.

In Marynarki Polskiej street, opposite to the church, a pizzeria opened already in the 1970s. It was probably the second pizzeria in Poland (the first was the one operating until today in the "Poranek" bar in Słupsk). Ustka's taverns worth a recommendation include "Columbus", well-known to Ustka's patrons under its former name "Korsarz". Fish have been served here since 1960s. Among others, "Tawerna Róża Wiatrów" near the boardwalk specializes in fish.

It offers tasty lunches of fresh Baltic and Mediterranean fish. Along the harbour channel there

are many smaller fish-and-chips diners offering fresh fish dishes. There are fish shops at the western side of the harbour, near the "Ust-Ryb" and "Alga" restaurants.

Culinary traditions revive in the revitalized quarter between Marynarki Polskiej and Czerwonych Kosynierów streets. The "Pod Dębem" restaurant was created in one of the restored facilities. Nearby, "Itaka" smokehouse and restaurant tempts with all possible varieties of fresh fish. "Syrenka", with its original fish dishes, also merits a mention. In 2011 Magda Gessler ran her famous Polish version of "Kitchen Nightmares" there. The "7 Niebo" restaurant is well-known for its refined cuisine. "Dym na Wodzie", housed in Villa Red, is a restaurant run by a participant of the popular TopChef TV programme. Opened last year bistro&-cafe „U przyjaciół” proposes its guests wide range of herring dishes.

When in Ustka, you definitely need to taste traditional local fudge in "Cafe Mistral". If you are

a dessert lover, do pay a visit to "AniAni" Cafe, "Góra Lodowa" ice-cream parlour, or eat "Lody Usteckie", the ice-cream of Ustka. You can taste traditional "Bursztynowe Ciasto", amber cake, in "Pod Dębem" restaurant. Amateurs of alcoholic beverages would certainly enjoy a visit in "(Nie) winna Piwniczka" Wine Cellar and Tea House in Marynarki Polskiej street.

A visit in the spacious and brand-new restaurants and bars of the "Grand Lubicz" vacation and spa complex will certainly be an unforgettable experience. They cater for hotel guests and external customers. Culinary masterpieces – both original and traditional ones – are served here in exceptionally beautiful interiors. The place is especially recommended for families, as there is a special menu for kids. A playground is also provided.

The character of the restaurants located in the harbour wharf is quite different. This applies in particular to those housed in historical granaries.

Zagroda Śledziowa, the Herring Farm, is located on the outskirts of the Starkowo village (10 km away from the sea), in a harmonious and romantic landscape. Here, you can relax in peace and calm, but if you wish, we can also offer meetings with music, barbecue and common feasting.

## THE INN

In the Farm, there is an Inn where we serve all possible varieties of herring: the Polish, Kashubian, Scandinavian, Dutch, German, and Russian ways, as well as many other refined recipes.

## THE HERRING MUSEUM

Herring is our great passion. We would love to make you more familiar with the health benefits of eating this fish, present you with the history of herring fishing in Europe, Poland, and in our region.

## THE PENSION

The building housing the pension was built in 1902. We furnished it in a style which combines tradition with modernity and functionality. Each room has Internet connection and a TV.

Visit the Farm, and try all varieties of herring!

# Health Resort Ustka

In 2018, Ustka celebrates the 30th anniversary of being granted the status of a health resort. This status of a health resort town was received by Ustka on 1 January 1988 (resolution No 210 of the Council of Ministers of 23 December 1987).

The efforts to be granted the status of a health resort were initiated on 1 September 1974 with an act of forming the Health Resort Division of the State-Owned Enterprise of "Połczyn Zdrój" and - on 1 July 1978 - the State-Owned Enterprise of "Health Resort Ustka" which, on the basis of already existing in Ustka holiday facilities as well as the Institute of Natural Medicine, started their health resort activity. The State-Owned Enterprise of "Health Resort Ustka" accepted approximately 1300 patients at the same time and provided around 2500 daily medical treatments.

Microclimate, clean air, wide beaches, pine forests, treatment and accommodation facilities, natural treatment resources such as mineral waters and mud are all factors enabling Ustka to function as a health resort.

The microclimate in Ustka has a beneficial influence on human organism. The sea-side air containing iodine, calcium and magnesium salts supported by negative ionisation has a favourable effect on self-esteem, increases vitality and energy levels. A considerable climatic diversity significantly enhances the influence of various stimuli upon human organism. Sea-salt aerosol constitutes a natural therapeutic factor in the treatment of respiratory and allergic diseases. Ustka is visited by patients who wish to treat ailments of the motor system, rheumatic, upper-respiratory tract and cardiovascular diseases as well as metabolic and endocrine system disorders.

Ustka's values have been known for a long time. Although the first list of holidaymakers appeared shortly after 1830, the first guests came much earlier. As long as until the end of the first world war Ustka boasted two separate bathing sites: for women (on the eastern side) and for men (the western side) - with a park which encompassed the current area of bunkers of "Blüch-

er" battery. At the turn of 19th and 20th centuries, the number of patients coming to Ustka increased considerably and so - in 1911 - baths were constructed which have since turned into the Institute of Natural Medicine. At that time it was a type of thermal baths in which, initially, baths in heated sea water were prepared. Subsequently, brine and mud baths were added as well as various inhalations. Ustka started to promote itself as a spa ("Bad" in German) specialising in bathing - and the most prestigious hotel in Ustka was proudly named "Kurhaus", the Spa House.

In 1905, there were two spa-based doctors in Ustka. In a brochure from 1906 we can find information that among Ustka's therapeutic methods and means there is a stay in it, walks on the beach and in pine forests, cold and hot sea baths as well as a spa therapy. The patient, within 24 hours from the time of arrival, was obliged to buy the Health Resort Card and pay the fee which - for an adult - amounted to 70 pfennigs per day (source: History of Ustka from 1985). From the 20's of the 20th century there existed an official name of "Ostseebad Stolpmünde" - "Baltic Seaside Resort of Ustka".

After the war, holiday facilities were built for the workers of several dozens of large employing establishments from the whole area of Poland. In addition, several "Czarodziejkas" (Enchantresses) started to function - which were houses of the Workers' Holiday Fund. In the 70's, the first sanatoriums were created.

The health resort Ustka of today boasts beautiful accommodation facilities (up to five star category), excellent treatment infrastructure, a well-tended town, clean air, numerous attractions and a friendly atmosphere.

# Attractions for kids

On sunny days the beach is teeming with life. Holiday, sun, and seaside: these would already suffice to have fun. Springboards, bouncy castles, slides: kid laughter can be heard all around. Little tourists won't get bored, as the beach is by no means the only attraction awaiting them.

"Kids get bored when it's rainy"? Maybe, but not in Ustka. Lack of sun does not need to transform your holidays into a nightmare. We recommend Ustka's playgrounds for cloudy days. You'll find one of them in the place where the boardwalk meets Trakt Solidarności. They can also be found in Osiedle Kościelniaka residential area and in uPolna street. You can also find swings and teeters within the premises of Sports and Recreation Centre, which in high season offers interesting attractions for kids virtually every day.

The Cultural Centre organises all kinds of art games, as well as pottery and music workshops for kids from outside of Ustka. The local cinema is also very active and offers a couple of screenings a day.

When it's rainy, a trip to Blücher's Bunkers is also worth a recommendation. The underground multimedia gallery offers exceptional experiences; in addition, you can play pétanque, enjoy paintball,

ASG, and a bow shooting range here. Under the supervision of a professional trainer even 4-year-olds can practise archery. There are also historical cars that you can rent for a trip around the most interesting places of Ustka and its neighbourhood. A trip through the streets of Ustka on a colourful train will certainly provide unforgettable experiences for the youngest kids.

Even if it's rainy, you don't need to give up on baths. There are swimming pools in hotels such as "Grand Lubicz", "Lubicz", "Jantar", and "Royal Baltic". In Grand Lubicz Hotel, there is also a playroom where kids can actively spend their time if the weather does not allow for frolicking outside.

# Recreation and adrenaline

Emotions in Ustka can be graded: from guided walks in the old town to instructed paragliding and diving in the Baltic Sea.

*Cyclists in the Blücher's Bunkers terrain*

## Trips

Free guided walking tours around the old Ustka are organised for individual tourists each Tuesday at 10.00 a.m. (from June 28 to August 23).

The starting point is the square in front of Saint Redeemer Church.

As a novelty, in the Tourist Information Centre you can rent an audio guide. In the summer season,

*Seaside boardwalk*

twice a week – on Wednesdays and Sundays – it is possible to see Ustka from aboard a choochoo train which leaves the stop in Portowa street to tour the town streets. Tickets are available in the Tourist In-

formation Centre in Marynarki Polskiej 71 (phone: +48 59 814 71 70). The Centre provides up-to-date information on other paid tours.

## Bike rental

This is an offer for those who enjoy active recreation. Among others, bike rentals operate in holiday centres, in the Tourist Information Centre (where you can rent child seats and trailers as well), the Kawis-bike bike shop in Darłowska street, and in the vicinity of Blücher's bunkers.

*Cyclist at the beach*

## Canoeing trips

Among others, "Na kajakach" company and "Wir" canoe marina organise single- and multiple-day canoeing trips. We can certainly recommend trips down the Słupia River, with the possibility of visiting the "Fishparty" fish manufacture in Niestkowo, where you can learn a lot about preparing delicious fish. The different varieties of herring canapés are especially tasty. "Na Wydmie" rope course

Courses of varied degree of difficulty await both kids and adults at Trakt Solidarności in the eastern part of the town. They are situated about 150 m away from the beach. If you are not afraid of heights, they are worth giving a try under the supervision of experienced instructors. Before the challenge, everybody is briefly instructed on how to use climbing harness. Bike rental is also in offer. Near Ustka, another rope course is operating in Dolina Charlotty.

## Paragliding

If you are more courageous than that, you can get even higher, paragliding with an instructor. Waldemar Janiszewski (aquila.net.pl), one of the local paragliders, has a license for gliding with a passenger. Thus, you can safely enjoy the flight and admire bird view of the cliffs in Dębina, which – under favourable air currents – becomes a true paradise for paragliders.

## Diving

A trip into the underwater world provides emotions of a totally different kind. This is possible thanks to Podwodnia Baltic Diving Centre. They organise diving with an instructor – the so-called diving intro. Depending on weather conditions, you can dive in the sea, lake, or pool. Everybody wishing to experience an underwater adventure and fit enough for this can leave Ustka with unforgettable memories.

# Accommodation in Ustka

The accommodation possibilities in Ustka have been developing for years. The oldest pensions still in operation, such as "Villa Red", are 130 years old! Many accommodation possibilities were created in the 1970s, when companies and institutions from the whole of Poland were constructing here numerous vacation resorts for their employees. The majority of these facilities have recently been renovated by their new owners.

Many attractive luxury apartments and flats in modern buildings have been constructed recently. According to data from the Local Tourist Organization "Ustka and Słupsk Area", there are currently more than 11,000 beds available in Ustka. You can find accommodation suitable for you at [www.ustka.travel](http://www.ustka.travel) or simply contact the Tourist Information Centre. Advertisements of lodgings whose owners are associated in the organization are subjected to on-going categorization; the accommodation offered is well-tested and worth a recommendation. Nowadays, there are nine hotels in Ustka that operate all year round; these have nearly

two thousand beds. One of the hotels is five-star; no other hotel between Kołobrzeg and the Tricity has such high standard. "Grand Lubicz", for it is the name of this unique place, has more than three swimming pools. "Hotel Lubicz Wellness & SPA", "Royal Baltic", and "Villa Red", revitalized 19th century pearls built in English Gothic style, also provide high standards. In high-season, a double room in the best hotels in Ustka can cost as much as PLN 450, but there are many cheaper options as well. The 26 vacation resorts in Ustka can simultaneously accommodate more than three thousand guests, and the price range is between PLN 30 and 160 per person. In low-season, prices can get even lower than that. The cheapest accommodation opportunities can always be found in guest rooms, private lodgings, cabins, tents, or camping sites. Lower standard translates into a price of ca. PLN 30 per night. Renting a cabin costs PLN 30 to 100 per night, depending on the standard offered. To rent a whole flat, you'd typically need from PLN 120 to 300 per night.

# Sea adventure!

During a short cruise on the Baltic sea, especially on the above-mentioned galleons, you'll feel like an ancient sailor, or even like a pirate! It is definitely worth having a glance at Ustka from the side of the sea, as it is this perspective that allows you to fully appreciate the sandy beaches and picturesque cliffs. Hungry for something more? Take a ride with a super-fast hybrid motorboat! More information is available in the Tourist Information Centre, or on the eastern wharf, next to the lighthouse.

Angling trips to open sea take much longer than recreational cruises: up to a dozen hours. There are a couple of organisers of such tours, including Sea Angel. During the trip, you will mostly fish for cod: a brave predator, which can weigh up to a couple of kilograms. Fishermen organising such trips often prepare the fish aboard the vessel.

You can also enjoy recreational fishing on the harbour and wave breakers, as well as on the river before the first fixed bridge, after making a payment to the account of The Regional Sea Fisheries Inspectorate in Słupsk. You would need to pay PLN 7 for a week of fishing and PLN 11 for a month or PLN 42 for a year. There are substantial reductions for pensioners, retired people and holders of Polish Big

Family Card. The permit for angling on the river is much more expensive. In return, however, you may be lucky enough to angle large bream, roach, perch, flounder, herring, and even eel – during warm summer nights.

Apart from angling and sailing, other interesting activities, such as wind- and kitesurfing, are gaining popularity in Ustka. On windy days you may observe daredevils whizzing on the sea; it is a great opportunity to learn how to start practising these sports.

*Strong wind is perfect for windsurfing*

# The mermaid of Ustka

The first depiction of Ustka's coat of arms was a mermaid with a salmon in her hand against a background of a sailing ship. You can see this depiction on the monument located in the park by the boardwalk: it is carved on the warrior's shield. The monument commemorates the inhabitants of Ustka who died in World War I, and was unveiled in 1922. Wilhelm Granzow, a painter from Ustka, wanted the mermaid to symbolise the charming bathing resort of Ustka. Ustka's coat of arms can also be admired on an obelisk in Alina Skibniewska square.

In the 1950s, when Ustka was already a Polish town, Franciszek Fenikowski, a writer from Kashubia, wrote a legend about the coat of arms. He created Bryzga Rosowa, a mermaid of pure heart, who took pity over Marusza, a blind widow from Ustka, deprived of any means of support after her son had failed to return from a long sea voyage. Each day the mermaid brought fresh salmon to the poor woman. Thanks to this, the widow soon regained her sight and could see the sailing boat, on which her son returned, in good health and wealth.

As it is only Warsaw and Ustka that in Poland have a mermaid in their coats of arms, several researchers felt tempted to examine the relationship between the two characters. It was found that the mermaids were sisters. After a calamity had hit

the Mermaid Isle in the Antiquity, sister mermaids spread all over the world. Three of them swam into the Baltic Sea. One, commemorated by a famous monument, stayed in Copenhagen. The second sister swam up the Vistula River and, after many adventures, ended up on the coat of arms of Warsaw. The third sister fell in love with the golden beaches in the neighbourhood of Ustka; it is she who, with her kind heart, helped Marusza.

Walking on the eastern wharf in the harbour, you can stop by the mermaid, who is looking out to the sea, and greet your friends from all over Poland thanks to an Internet camera placed on the monument. [www.syrenka.ustka.pl](http://www.syrenka.ustka.pl)

If you really want to feel the sea breeze, you should take at least a short cruise on the Baltic Sea. A couple of beautiful tourist ships imitating old sailing ships are moored in the harbour. Some even host disco parties!.

## OPENING HOURS OF A FOOTBRIDGE IN THE HARBOUR OF USTKA:

# Artists and culture

**The Baltic Gallery of Contemporary Art** is the only cultural institution of Pomorskie Self-government whose goal is to promote modern art. The gallery has three exhibition facilities: the Witches' Tower, the Small Gallery, and the Centre for Creative Activities.

The Baltic Gallery was established in 1987 in Ustka and is located in the old granary. In 2013, the name of the gallery was changed into "Centre for Creative Activities".

The name change, together with the change in the image of the gallery, was introduced as a result of successful completion of a project entitled "The Comprehensive Program for the Development of the Baltic Gallery of Contemporary Art – Creating the Centre for Creative Activities in Ustka". The Centre for Creative Activities has been launched in the wake of full modernisation of the granary, a modest part of which was previously occupied by the Baltic Gallery of Contemporary Art. Currently, the whole granary building is operated by the Baltic Gallery of Contemporary Art. It is the first centre of this type in Poland and one of the few that have so far been established in Europe and worldwide. Since the reconstruction, the Centre has been furnished with a perfectly equipped sculpture and ceramics studio, as well as a computer- and motion graphics studio. In addition, the Centre has a lecture room and an exhibition hall. Comfortable modern apartments and coffee lounge make this place perfectly suited for artist-in-residence stays. The artists we have been hosting mostly come from abroad. We have had guests from all over the world, including Belgium, Great Britain, China, Japan, Israel, Egypt, Ireland, France, and Ukraine.

The Centre for Creative Activities has been meant as a place for performing interdisciplinary activities related to broadly understood visual arts. Film, music, theatre, as well as performance projects are run here. The most prominent artists – both from Poland and from all over the world – have been invited to the Gallery.

**The City Library in Ustka** is situated in № 22 Kopernika Street. The library boasts a rich collection of books, which is continuously being updated with new releases, as well as a substantial collection of publications related to the region. It also offers audiobooks, a wide choice of newspapers, magazines and board games, as well as eight computer stations with free Internet access. Tourists and patients alike are welcome to visit the library. In the library hall, a boom fair has been organised where you can buy second-hand books for a song. Throughout the year, the library runs cultural projects and advocates reading, organising meetings with Poland's best novelists, promoting the work of local writers and artists, conducting educational and literary-artistic meetings for children, running book discussion clubs for teenage and adult readers, as well as organising literary workshops.

**Cultural Centre in Ustka** has two facilities: Cultural Centre (Kosynierów 19) and Baltic Cultural Centre (Kosynierów 21).

The Cultural Centre in Ustka is a local cultural institution which animates the local community and runs art groups and clubs that provide children, teenagers and adults with a high standard of cultural education. The Centre organises exhibitions, shows, festivals, art workshops, concerts and theatre shows performed by local as well as nation-renowned artists. In addition, the Cultural Centre cooperates with other bodies and institutions – not only local ones – by supporting their initiatives and providing them with substantive help. In the summer season, the Cultural Centre organises numerous activities and events for tourists. These are mostly family outdoor events (at East beach, at the courtyard of Baltic Cultural Centre, and in Promenada Nadmorska Street – the seaside boardwalk). The flagship undertakings organised each summer include: the Baltic Child Song Festival "Bursztynowe Słoneczko" (20th edition this year), UFF(o)A – Ustka Amateur Film Festival, Holiday Film Club, Family Ceramics Meetings, Sand sculptures, the Lighthouse Fest, and "Ustka Muszelka" tourist singing contest..

**ZPAP House of Creative Work** invites guests for individual stay from the first weekend of May until the end of September. It is a perfect place for plein air painting and outdoor photography, as well as for artistic meetings and conferences. Set in a 19th century manor house, the House of Creative Work is located barely 50 metres from the sea, at the corner of Chopina and Kopernika Streets. The building is one of the most interesting and the best preserved objects in Ustka, and is listed in the Polish Register of objects of cultural heritage. Right after the war, the building has become the seat of the House

of Creative Work, operated by the Association of Polish Artists and Designers. The manor house is surrounded by a garden. What adds to the unique atmosphere of this place is the Art Nouveau interior design. The forged metal railings and fencing, the stained glass windows in the mansion tower, and the inlaid verandah ceiling deserve special mention. The House is famous for its delicious cuisine, served in a former stable, where the dining hall is currently located.

#### **Gallery, Tea House and "(nie)Winna Piwniczka" Wine Cellar**

The Gallery was opened in 1991 by Jan Nagórny. Over the past 26 years, the Gallery has extended its scope of activities by opening the "(NIE)WINNA PIWNICZKA" Wine Cellar (1996) and the Tea House (2002). What has not changed is the art gallery feel that this place has always resonated with.

Since the beginning of their activity, the owners (Elżbieta and Jan Nagórny) have organised over 100 exhibitions (often accompanied by music concerts). It is here that the first edition of the annual satirical festival "ŁYK'END SATYRY" took place. Numerous artists – not only from Ustka and its neighbourhood, but also from all over Poland and Europe – have exhibited their work in the Gallery. Among them are Andrzej Graniak, Marek Chmielewski, Florian Kohut, Roman Kwiat-Kwiatkowski, Elżbieta Kulka, Barbara Gebarzewski, Yannick Leider, Chris Eliot, Sylwia Pakulska, Hanna Chroboczek, Tatiana Samoilova, and many others impossible to list here.

In 2011, the Gallery started cooperation with "BALLAD'ART" art collective from Grenoble. "(NIE)WINNA PIWNICZKA" wine cellar is a place where – apart from attending an exhibition and savouring high-quality wine or the regional "siekierka" alco-

holic drink – you can take part in a poetry evening.

Since April 2016, the Tea House has been a branch of Florian Kohut's "POD STRACHEM POLNYM" Signature Gallery. Since a few years ago, a cycle of artistic meetings "USTKA STRACHEM MALOWANA" has been organised in the summer season. During these two days, inhabitants of Ustka and tourists alike can watch the process of how paintings of Ustka are created. In the winter season, the owners organise a two-day street fair, to which they invite folk artists and craftsmen from Ustka and its neighbourhood. In the summer season of 2017, Barbara Gebarzewski from Sevres is going to be the Gallery's guest. In connection with Ms Gebarzewski's stay, the Gallery owners are planning to organise an exhibition about the history of dolls and dollmaking. It is also possible that the "Herbatą malowane" workshops, which attracted a large audience last year, will be organised once again. Mr and Mrs Nagórny have been awarded the 2016 "Biały Bocian" Award in recognition of their artistic achievements, as well as their contributions to promotion and preservation of cultural property. The Tea House is a place with tradition; with a soul and a heart. It is a place locked in time, where time stops, and where memories are created.

#### **The "Delfin" Cinema**

The cinema in Ustka was built in 1937, which means that it is celebrating its 80th anniversary this year. It is one of the oldest still functioning cinemas in Poland. The building owes much of its grandeur to the row of six columns along the façade. Currently, the cinema features modern digital equipment and professional sound system; yet, it has retained the intimate atmosphere of a small traditional cinema. Both blockbuster movies and independent films are screened here. In addition, concerts are frequently performed on the cinema stage. When at the cinema, you are welcome to visit the Ramydada Pub & Cafe, located within the building, and enjoy delicious coffee or alcoholic beverages after the film.

An interesting curiosity is the "W starym kinie" Guest House, an original guest house with rooms that relate thematically to the greatest stars of the silver screen, such as Charlie Chaplin, Marilyn Monroe, Al Pacino, and Audrey Hepburn. Each room has a unique and inimitable décor.

## Honorary Citizens of Ustka

This title, reserved for individuals with exceptional contributions for Ustka, is always awarded on the basis of a resolution by the Council of the town. So far the beneficiaries of the title of an Honorary Citizen of Ustka have been as follows:

Udo Rust, in the years of 1990–2001 he held the position of the mayor of Kappeln, a partner town of Ustka. In October of 1990, he visited Ustka for the first time with a project regarding the Town Partnership Agreement which was finalised in 1991 in Kappeln. In Ustka, he is known in particular for his help for children from the local orphanage - it was his initiative to create "The Circle of Friends of the Orphanage in Ustka". He has been an Honorary Citizen of Ustka since 2001.

Eugeniusz Brzóska, one of the first citizens of Ustka, a social activist and an enthusiast of history. A member of The Association of Friends of Ustka and the owner of the oldest bakery in Ustka. Eugeniusz Brzóska devoted his whole life to bakery and confectionery and he is best known as

the owner of the Museum of Bread. On the area of 150 square metres, he collected two thousand bakery and confectionery exhibits. In 2006, with his son, he published an album with pre-war postcards from his collection titled "Ustka we have not known so far". This publication contains almost 240 postcards presenting the views of Ustka of the past: its streets, parks and tenement houses. Eugeniusz Brzóska received this title in 2010.

Witold Lubieniecki, a citizen of Ustka and an outstanding representative of Polish maritime painting tradition. His works remain in the hands of private collectors and museum collections both in Poland and abroad. He supported charitable activities by giving

his paintings for social objectives. He took part in over 160 exhibitions in Poland and abroad as well as

organised numerous plein-air painting workshops. Out of the paintings left by the participants of workshops organised in the town hall - "The municipal gallery of modern painting" was created. He became an Honorary Citizen of Ustka in September of 2012. He passed away in the same year, following a severe illness.

Irena Klein, a long-time President of the Cooperative Bank in Ustka, received the title of an Honorary Citizen of Ustka in 2014, among the others, for the financial support she provided for educational institutions, charitable activities for cultural institutions and individual persons, as well as an active work for the benefit of the fisheries

community. She had an enormous contribution in the field of creating a universal bank - appreciated both in Poland and abroad. The evidence of this can be seen in the cooperation with Volks- und Raiffeisenbank from the partner town of Kappeln.

Tomasz Iwan, a former footballer, currently the director for organisational matters of the Polish national football team. He received the title in 2014 for the organisation of the finals of Beach Soccer in Ustka and promoting our town through sport - both in Poland and abroad. He spent his childhood and youth in Ustka - starting his sport career in MKS "Jantar". He is always willing to support charitable activities and any action that aims to promote his native town. In December of 2017, with the Town Council of Ustka, he initiated a project of an art and photography competition held under slogan "I remember where I came from". In addition, there was a movie produced under the same title.

# Attractions of the Ustka Commune

Just as a pearl shines bright only when fixed in a diadem, Ustka enchants even more thanks to the beauty of the Pomeranian landscape of its commune. The Ustka commune stretches along the seaside from Rowy in the east to the Modła Lake and Zaleskie Bagna marsh reserves in the west. It also covers farming villages in the coastal strip, 10 km into the land. Beautiful beaches, forests, dunes, lakes, meadows and turfs, together with well-preserved ancient architecture encourage biking, walking, horse riding, and canoeing trips.

## Beaches

The commune is divided in two by the Słupia River. Unfortunately, access to the beaches on the western side is limited by military grounds. However, a picturesque passage to the sea has recently been opened near the village of Modlinek. The path leads along an old, post-German railway embankment at the foot of the mysterious Ognica hill.

In Ustka and east of the Słupia River, there is nothing that would block access to beaches. You can thus walk the beach from Ustka to Rowy, passing the picturesque mouth of the Orzechówka creek and the so-called King's Throne in Orzechowo Morskie. A couple of gloomy legends are connected with the creek. Medieval pirates are rumoured to have killed their hostages here – hence the brook's informal nickname is "Cadaver Creek". King's Throne, on the other hand, is a high hill from which you can admire a beautiful view to the sea. One of the attractions of Orzechowo is an observation tower, made available by State Forests, and a nature trail leading through the Orzechowo Dune.

Beach in Orzechowo

Beach in Dębina

## Poddąbie at the seaside

Poddąbie is located midway between Ustka and Rowy. In the past it was called Nowy Strąd, from the German word "Strand" meaning beach. This relatively young village was founded in the second half of the 18th century by Prussian King, Frederick the Great. Nowy Strąd took the "Poddąbie" name from the old medieval settlement of "Poddamp", which ended its existence in 1914 after a heavy storm. The settlement was located at the edge of a gorge curved by a small creek about 1 km to the west from present-day Poddąbie. Next to the place where this settlement was once located, there is a footbridge connecting both edges of the gorge.

## Dębina

Dębina is famous for its cliffs, exceeding 20 metres in height. It is a true paradise for paragliders who, under favourable winds, can take off from here. In the past there were glassworks in Dębina. Until today you can find green transparent glass clods in the soil. In the communist period, there was a top-secret on-shore missile station in Dębina.

bina. What has remained of the station is ruined military facilities on the high cliff.

## Rowy

This place is bustling with life especially in the summer, as it is one of the most popular Baltic Sea bathing resorts. For many years now, nudists have enjoyed the beach east of Rowy. The Łupawa River, which leaves the Gardno Lake before Rowy, flows into the Baltic Sea just here. In the mouth of this river, there is a small picturesque harbour with small concrete wave breakers. [www.port-rowy.pl](http://www.port-rowy.pl)

Promenade in Rowy

The Łupawa River is a paradise for anglers, whom you can meet all year round along the river banks on both sides of the bridge. If you prefer staying active, we recommend canoeing, walking, or cycling trips to Słowiński National Park, which begins just here. Even a shortest walk – about 2 km long – to the vantage platform near the Gardno Lake provides an unforgettable panorama of the lake and the Rowokół hill. In high-season, in Rowy you'll see plenty of stuffed

Marina in Rowy

teddy bears, crocodiles and frogs, and a rather largish grasshopper, similar to the one which you can see in the coat of arms of the Ustka commune. This is because national Stuffed-Toy Rallies (Zjazdy Maskotek®) are organised here every year. National Parade Orchestra Contest is another event organised here cyclically.

Also, open-air painting and sculpture workshops for amateur artists are organised here. Grand sculptures in wood, donated by the artists after the events, decorate many streets of Rowy. These works of art are thematically connected with the legends and daily life of the local people.

## Mysteries of the church in Rowy

The oldest church in Rowy was located on a hill between the village and the lake. There also was a graveyard where castaways from various countries were buried. The pre-sent-day church was built from ashlar in the 1940s. One of the stones is black and is rumoured to get damp when the weather changes.

Saint Paul and Peter Church in Rowy

– in this way, the stone warns fishermen against possible storms. A legend says that the stone is black because it was dropped here by the devil; in fact, it is vein quartz, a rare erratic distinguished by its exceptional hardness. They say that someone tried to break it and then caused a crack by heating the stone in the fire – to no avail, and hence the black colour.

# Interesting places

## Przewłoka settlement and village

It borders Ustka from the eastern side. There are many pensions and farmhouses here. The region has a rich history. In the 1970s, in the Przewłoka settlement, a Pomeranian culture burial ground, aged nearly 2500 years, was discovered. Przewłoka itself was first mentioned as Preuloca, a fishing settlement on the shore of a lake. The lake was situated between the Przewłoka settlement and Ustka, in a peculiar basin, where therapeutic peat can nowadays be found.

In 2015, the seat of the Słowińska Fisheries Group was built here, together with an outdoor gym. In the village there are also playgrounds and a multi-purpose sports court.

*Holy Virgin Mary Star of The Sea Church*

Near the very border with the town, there is the characteristic Holy Virgin Mary Star of the Sea Church, built on a he-xagonal star plan. A "papal oak" grows in front of the church. At the junction of Armii Krajowej and Ustecka streets, in front of the church square, there is Monument of Polish Underground State.

## Machowino

Machowino features a Gothic Revival church of 1892, with an interesting location and the oldest tombstone in the Słupsk district; the tombstone dates back to 1596 and was moved here from an ancient temple. In all probability, it commemorated Lorenz von Schwabe, owner of Machowino. An old evangelical graveyard with characteristic, cast iron crosses has also survived until today. Machowino and Machowinko are places where you can still admire the parks and palaces of the ancient Prussian Junker families. Currently, nursing homes operate in both palace buildings.

*Evangelical Cemetery in Machowinko*

## Extreme Rope Course in Rowy

This is a perfect place for people who, after basking on a sunny beach, would like to move a bit and feel the thrill of emotion. Four courses are available: training, kid, medium-difficulty, and difficult. Each has as many as 60 obstacles, including zip lines.

## Objazda and Bałamątek

In Objazda, take a look at one of the oldest timber framed wattle and daub churches in the Pomeranian region: the church under the auspices of Holy Mary of Częstochowa. The building was funded in 1606 by an heir of Objazda. Behind the church, you can enjoy a walk in the palace park. Not far from here, in Osieki Słupskie, there is a park where, as rumor has

*Black Madonna of Częstochowa Church in Objazda*

it, edible chestnuts grow. From Osieki it is already very close to Dominek, a village in whose vicinity Gabel was located. Gabel, which translates as "fork", is the German name for the railway station which was functioned in the fork of local railways from Smołdzino and Słupsk. When driving from Objazda in the direction of Rowy, you will reach a locality called Bałamątek, which was previously called Alte Mühle – Old Mill, as a water mill used to be here. It is the stones of this mill that served as building blocks for the church in Rowy.

**Baltyk Apartamenty.com**

"Baltyk Apartamenty" is a housing and vacation centre in a very intimate location in Poddąbie near Ustka, just 300m away from a broad, sandy beach, in the middle of a picturesque forest.

"Baltyk Apartamenty" offers 20 apartments, each with 2-3 rooms for 2 to 6 people. In each apartment you will find a fully equipped kitchen annex and a TV set. Modern bathrooms with floor heating. Traditional fireplaces. You can also buy an apartment for yourself.

The slightly hilly landscape invites walking and cycling - Poddąbie is a perfect starting point for trips. It is exactly here that the Słowiński National Park, entered into the UNESCO World Heritage List, starts - explore its moving dunes, the Gardno Lake, the lighthouse in Czolpino, and the beautiful walking trails.

## Grabno and Zimowiska

On the road from Słupsk to Ustka, there are the connected villages of Grabno and Zimowiska. A legend says that inhabitants of Ustka moved there for winter to protect themselves from storms. This would explain the name "Zimowiska", which translates into English as "winter camp". The small 16th century austere brick Saint Nicolas Church was once the seat of a parish which also covered Ustka. Today, it is the other way round: the main parish functions in Ustka. In a 15th century underground crypt, there still are the remains of von Winterfeld knights, including

*Black Madonna of Częstochowa Church in Duninowo*

that of Borchard von Winterfeld, who was beheaded in Sławno in 1485 for road robberies. Winterfelds' tombstone has been preserved until today, and so has a millstone, built into the outdoor wall at church entrance. This is likely to have been the place where convicts were chained to a pillory as a punishment for their misdeeds.

## The Checkered Land

The western part of the Ustka commune, separated from the sea by military grounds, is still more agricultural than touristy in character. Paradoxically, this has facilitated the survival of many relics of ancient local architecture. In Wodnica, Starkowo, Pęplin, Możdżanowo, and other villages east of the Słupia River, there still are many authentic quadrilateral crofts with original timber framed wattle and daub buildings. Some of them are nearly 200 years old. Quadrilateral crofts were built-up from all four sides, with the house in the back of the farmyard, the cowsheds and stables on the sides, and a barn with an entry gate on the side of the street. Timber framed wattle and daub buildings are made of black wooden skeletal beams, and the spaces in-between are filled with clay and whitened with lime. This gives an image similar to checker – hence the region is nicknamed the "Checked-Houses Land".

Among the most interesting timber framed wattle and daub structures are church buildings – don't forget to visit the churches in Charnowo and Wytowno!

## Duninowo and Zaleskie

The settlement was created near a lagoon, whose remnant is the present-day Modła Lake. The most interesting sight in Duninowo is the 14th century church reconstructed in baroque style in 1878. The property once belonged to von Krümmel knights. According to a legend, one of the knights, named Wulff, killed a priest in the church; they say that he did it to punish the vicar for his greed. In the porch, you can still admire the von Krümmel family tombstone, with a bizarre curse inscribed upon it, and two knight lancets, which have survived until today. The owners of Duninowo changed several times. Interestingly, among its owners was the von Frankenstein family, to whom Duninowo belonged around 1843.

When in Duninowo, it is worth making a trip to the nearby Modła Lake and the bird reserve. Go there with a camera or binoculars. In the past, the lake was much larger. In the times of the Romans and in the Middle Ages, metallurgical furnaces smoked on the sides of the lake. Turf ores were smelted into iron for arms and agricultural tools. This gave rise to "Zaleskie" – the name of this place. Despite what you may think, this does not mean a settlement placed "behind a forest", which the present-day form may imply to a native speaker of Polish, but – presumably – an old metallurgical centre called "Żelaskie" (from the Kashubian word "Żeleszczé"). If you are here, you definitely have to see the 16th century church with a cross commemorating inhabitants buried in the medieval graveyard, and the manor of the von Below family. It is this place that Gerda von Below, a German poet, frequently wrote poems about. From Zaleskie, you can follow a dirt road to the seaside until

you reach the place where a settlement called Zale-ski Strąd was once located. The fishing locality which, as legend has it, was founded by Swedish castaways, existed until 1958.

In the last phase of the settlement's existence, a Polish community of Benedictine-Samaritan nuns lived here, who ran a centre for disabled children. The centre went into liquidation as the nearby military territory expanded.

### *On a canoe*

The Słupia River flows through the commune and flows into the Baltic Sea in Ustka. Słupia is a very interesting water course. Whole-day canoeing trips are organised from Słupsk and Bydlino. There are also shorter trips, lasting a couple of hours, from Charnowo and Wodnica. While it is not the only pos-

sibility to get to know these places, you will certainly fall in love with the view from your canoe over the villages of Charnowo and Niestkowo, located opposite to one another on the banks of the Słupia River. The views are truly amazing. In Charnowo, you can admire a well-preserved post-German dairy and a 15th century church with sepulchral crosses of local evangelical priests.

When canoeing between the bends of the Słupia River, you will have an opportunity to admire rare animal species; especially water birds. The areas around Ustka are also very attractive for anglers. Those who are lucky enough happen to angle specimens of bulltrout and salmon weighing as much as several kilos.

### *On bike*

The Ustka commune offers attractive areas for bike tourism. Among others, you can choose the so called "Wound up rail track" trail from Ustka to Rowy (about 20 km), which is a fragment of the R-10 International Baltic Cycling Route. The trail leads along an ancient railway route and its most picturesque stretch leads through a fragment of a beech forest where the embankment reaches the approximate height of a dozen metres. Each year, general Polish bicycle rally is organised here to traditionally inaugurate the summer season. There are also other, shorter trails from Ustka and Rowy suitable for bike lovers. More information and guides are available in the Tourist Information Centre in Ustka.

### *Pomeranian Saint Jacob Route*

Saint Jacob's Route existed once in the Southern Baltic Region, leading from Königsberg, via Gdańsk and Szczecin to Rostock, and further west. Currently, a project is underway whose aim is to restore this special route and connect the existing heritage with a wider European network. In 1987, Saint Jacob's Route was added to the UNESCO Cultural Heritage List. A fragment of the Pomeranian Saint Jacob's Route passes through the Ustka commune; this fragment is marked with the characteristic symbol of a shell. In 2015, Marek Kamiński, a polar explorer, was passing this place as he pilgrimaged to Santiago de Compostella to explore his metaphorical Third Pole.

# The Smołdzino Commune

This is a true paradise for lovers of active tourism; it's all here – sandy beaches, moving dunes creating Sahara-like landscapes, two large costal lakes, the Łupawa River, and the incredible history of the Slovincian people. All of this makes this region one of the most attractive tourist destinations not only in Poland, but also in the whole of Europe. It is in this commune that you will find the Słowiński National Park, which is included in the World Network of Biosphere Reserves. [www.slowinski.pl](http://www.slowinski.pl)

Slovincians, after whom the park was named, were descendants of Pomeranian Slavic people who settled here in early Middle Ages or even earlier. Slovincians were a true sensation: they retained their language, which sounded like 14th century Polish, until the end of the 19th century. It is because of them that, since 1850, Russian, German, and Polish ethnographers have been coming here, aiming to research the people's language and cul-

ture. The memories of Slovincians have survived not only in the local open air museum, but also in legends, names of places, rivers, and forest areas.

*Black wedding in Kluki – peat digging*

## Kluki

The open air museum in Kluki was founded in the former village of Slovincians, who lived here since 18th century until the beginning of 20th century. The settlement is located on the shore of the Łebsko Lake. Three old timber framed wattle and daub farms have given birth to the Museum of the Slovincian Village, founded in 1963. The remaining buildings have been moved from other villages and equipped with tools bought from Slovincians. The open air museum comprises about 20 facilities, including seven houses, two barns, two bread furnaces, a storehouse for boats, and a fishermen's shelter with equipment. Employees of the museum cultivate memories of daily life, customs and history of of the Slovincian people. Half a century after the opening of the museum, memories of the last fifteen Slovincians – indigenous inhabitants of the "Checked-Houses Land" – were recorded. The oldest of these people were reaching their nineties. Some admitted that they felt Polish; others claimed that they were German. What they all uniformly agreed on was that they were Slovincians.

# Attractions of the Smołdzino Commune

## Wild beaches and dunes

Beaches here are wide. They have never been touched by a human hand. In summer, you can find plenty of space here at any time of day. The beaches delight with their velvety sand, which has been polished by the waves of the Baltic Sea for thousands

of years. The moving dunes are a sensation on a pan-European scale. There are many walking trails leading through this Polish Sahara. The dunes cover more than 327 km<sup>2</sup> and stretch between Rowy and Łeba, mostly on the spit between the Łebsko lake and the sea. The highest dune, Łącka Góra, rises to 35 m above sea level.

## Bikes and Łupawa

In the Smołdzino commune, bikes take the lead as a means of transport. This region is a true paradise for those who prefer off-road sightseeing. On a bike, you can get almost everywhere here. The majority of private lodgings, farms, agricultural centres and places visited by tourists are equipped with bike racks; this also applies to shops.

The network of attractive bike paths crossing this region includes, among others, the R-10 International Baltic Cycling Route, the "Golden Sand Path", and many connection roads. The total length of the paths in the commune exceeds 200 kilometres. There are two bike rentals operating here; in addition, many lodging owners also have their own bike fleets.

The Łupawa River, typically lowland and with a lot of meanders, offers interesting recreation

possibilities. Canoeing trips are by no means the only attraction here. There is a walking and bike path running along the river bends. Thus, be it on foot or by bike, you can admire the river's oxbow together with its beaver habitats. When on a bike, take a look at the open-air gallery stretching from Smołdzino to Łokciowe, entitled "I'm carved by my bike". Massive sculptures depict people in 1:1 scale in various poses.

Once a year, in mid-July, extreme "meandering" – a swim for lovers of the rushing current of the river – is organised on the Łupawa River. Participants are recommended to wear swimming wetsuits. The Łupawa River also offers numerous and rich angling grounds.

## Close to nature

Due to the close neighbourhood of Słowiński National Park, the forests here are full of horned cattle and deer. Birds, in their great variety, can be observed virtually anywhere. Birdwatching has been gaining popularity over the recent years. A couple of private lodgings are equipped with professional equipment. Observation safaris are also organised. The eastern part of the Gardno Lake is included in Strict Protection Zone "Gardnieńskie Łęgi", the "Nesting Sites of Gardno". Near Smołdzino, you are highly likely to hear the characteristic calling of cranes – a sound which is one of the most popular field noises here.

*Canoes rental*

The area has many natural attractions, including 16 beeches grown together, and deer rutting areas in Kluki and on the meadows of Gardno.

## Culinary attractions

Smołdzino, Gardna Wielka and the neighbourhood make up an area which is particularly interesting for gourmands. You can buy natural products directly from farmers in the villages. Bazaars, where local producers of bio-food offer their products, are organised here in the summer. You can't miss the sour soup (żurek) served in "U Dargoscha" inn in Kluki, the game in "U Bernackich" inn in Smołdzino, Jasia's

dumplings (pierogi), the home-made lunches in “Po drodze”, and the traditional liquors prepared by ladies from the “Słowiniec” association. In Gardna Wielka, we wholeheartedly recommend the local bakery, as well as Zbyszek Przysiecki’s smokehouse with an open-air company store. Here, you can savour smoked salmon or trout, served straight from the furnace.

### For history lovers

Rowokół Hill

If you enjoy discovering traces of the past, you’ll certainly fall in love with the Smołdzino commune. In each village area, protestant graveyards have survived – these have recently been revitalized. You would certainly enjoy visiting the 17th century palace and park in Żelazo, once the property of the Prussian von Bandemer family. The present-day church in Gardna Wielka was erected in 1852, in the place where the previous, 13th century Saint Stanislaus Church stood, and which was probably one of the oldest churches in the region. At the same hill as the church, a stronghold (“gród”) was located; this is where Gardna took its name from. In front of the church, there are a couple of obelisks and graves. The obelisk that commemorates the most tragic event is the one built in honour of the casualties of the crash of two boats on the Gardno lake. The crash happened on 18 July 1948, and 22 female participants of a scout camp from Łódź died in it.

In 1632, princess Anna von Croy initiated renovation of the church in Smołdzino. The church itself is frequently associated with pastor Michał Mostnik (Pontanus), who printed religious books in the language of the Slovincian people in the 17th century. The relics retained in the church are less-known. These are the remnants of Saint Castus and Emilius, Christian martyrs from the 3rd century, coming from the region of ancient Carthage in North Africa. The Catholic Church commemorates them on May 22nd. The Smołdzino hydroelectric power plant, propelled by the current of the Łupawa River, was built mostly by Russian prisoners-of-war, captured by Germans during the campaign in the Masuria region in World War I

Lighthouse in Czołpino

Hydroelectric power station in Smołdzino on the Łupawa river

### Vantage points

The lighthouse in Czołpino is situated 1000 metres away from the coast, on a 56-metre high dune covered with forests. The lighthouse started functioning in 1875. In summer, you can enjoy the views of the moving dunes and the lakes Łebsko and Gardno from here.

On the Rowokół Mountain, called the Holy Mountain of the Slovincian people, there is an observation tower. The mountain rises up to 115 metres above sea level. In the past, this was a place of worship for both heathens and Christians. Until 1530, there was a chapel under the auspices of Saint Nicolas.

The Łącka and Czołpińska dunes are called the “Crown of Smołdzino”. Góra Łącka mount, on the Łeba Spit, rises up to 30 metres above sea level. From the hill, you can enjoy a beautiful view to the spit itself, the sea, and the Łebsko Lake. The Czołpińska Dune is located on the red trail.

# DARŁOWO

## King Eric's Castle is waiting for you!

He was just 15, and already with three crowns on his head: Swedish, Norwegian, and Danish. He was neither Swedish, nor Danish, nor Norwegian, but a prince of the Slavic House of Griffins baptised with the name of Bogusław. The long life of **Eric of Pomerania** (1382 – 1459) was full of tumultuous events. He was nicknamed the Emperor of the North, the Last Viking of the Baltic Sea, but also the Pirate King because, once deprived of king's dignity by his enemies, he took revenge on them, plundering seaside towns and ships. He was born and raised in the Castle in Darłowo, to which he returned to spend the last 10 years of his life, supposedly with the legendary pirate treasures. These remain hidden in a secret place, still waiting to be discovered...

**Museum of the House of Pomerania** invites you to visit Darłowo, and to experience a lesson about unknown history. It's only a **40 minute** drive from Ustka!

**VISIT DARŁOWO AND DARŁÓWKO: A DUO FOR A PERFECT REST**

Other attractions of Darłowo worth your attention:

The only aqua park in Poland filled with sea water, and a fishing harbour with a fish market offering a wide assortment of Baltic Sea fish. Here, you can not only buy fresh fish directly from the boat, but also have it prepared before your very eyes, just the way you wish.

The Darłowo Harbour also offers trips to Bornholm. The most beautiful of the Baltic isles, Bornholm is often nicknamed the "Green Isle", or the "Malloca of the North".

# BUNIONS

## MIŁCIO MINI-DEVICE

made by *Lewandowicz* CE

### MAINTAINS THE PROPER POSITIONING OF THE BIG TOE.

While using it, you can walk, exercise and sleep. It prevents bunions from getting larger. Unique **orthopaedic shapes** ensure it does not change its position after putting on your socks and moving freely. **It prevents the formation of hallux valgus and cures it. You can halt the process.**

Due to its orthopaedic concavity, it is sure to maintain its position between toes.

**Take a good look at the shape and don't say you've already tried this.**

**Wings ensuring the proper positioning**

### Made of original silicone which does not cause allergic reactions.

It can be stuffed with a cotton piece and it will expand the worst bunion. You can insert it with the wings up or down - or slide it from the front (practical users' suggestions).

# SŁUPSK POVIAT – A SEA OF POSSIBILITIES

There are very few destinations in Poland resembling that of the Słupsk poviát. Its unique magic is composed by the sound of the Baltic sea waves, beauty of landscapes, picturesque hills, mysterious forests and - somewhere among them all - numerous lakes and rivers: Słupia, Skotawa, Łeba, Wieprza and Łupawa.

Even though we tend to be perceived as a region mostly associated with summer vacations, it is worthwhile to spend your free time here every season as you will find lots of possibilities and attractions to choose from. Apart from the multitude of natural and cultural values, another valuable asset of our region can be found in numerous agro-tourism farms, friendly people, their hospitality and delicious cuisine.

On the area of our poviát there exist perfect conditions to practise active tourism: windsurfing, kayaking, bike trips, hiking, horse riding, sea angling and hunting. You can admire the richness of nature and historic buildings of half-timbered construction from the 17th and 19th century. Choosing your rest in the countryside of the Słupsk region is a smart choice due to the number of possibilities. There truly is something for everyone

## DELICIOUS, HEALTHY AND COLOURFUL - THE COUNTRYSIDE OF THE SŁUPSK POVIAT IS WAITING FOR YOU!

In the Słupsk powiat there are plenty of attractive agro-tourism farms, guest-houses and other locations in rural areas worthy of your prolonged stay. Not only are they excellent sites for active rest, but they also make for a great starting point from which you can make trips to the sea-side or other destination points of the region. One can also taste delicacies of the cuisine of this region which is famous

Swołowo

Palace in Warcino

for its marine fish such as herrings in any form as well as the Pomeranian goose and potato soup and various traditional liquors. Another types of recipes which have become an integral part of the culinary landscape of the Central Pomerania are dumplings of all kinds, dishes made with the use of sourdough or mushrooms served either as additions or the main course. A separate recommendation should go to branded traditional products such as Onisiówka – liquor made on the basis of honey and Słovincian bread which is baked in traditional ovens.

An important element of the rural landscape connected with the Pomeranian nobility's estates are manor houses and palaces with parks from the 18th and 19th century. In Warcino (the commune of Kępice), there is a palace from the 18th century surrounded by a beautiful park which used to be a favourite residence of Otto von Bismarck, the Chancellor of Prussia. Equally magnificent palaces can be found in Damnica, Cecenowo, Górzyn, Żelazo, Zaleskie, Wytowno and Wieszyno.

The Museum of the Folk Culture of Pomerania in Swołowo

## SWOŁOWO Checkerland Capital

A village built on an oval plan in the medieval period, located 14 kilometres to the north-west of Słupsk, it has completely preserved its original spatial arrangement. Swołowo is in the possession of one of the most beautiful complexes of regional architectures in the Pomeranian region. The village's settlement mode consists of quadrilateral crofts. The village has approximately 70 historic residential and farm buildings of the frame construction. They were built in the second half of 19th century and at the beginning of the 20th century. Due to its entirely unique settlement mode, Swołowo bears the title of the Pomeranian Village of the Cultural Heritage. In reconstructed buildings, the Museum of Folk Culture of Pomerania was created which encompasses: Albrecht's Croft and, on the other side of the village, exhibition areas in the former barn and cowshed as well as the house of bread, fire station and a blacksmith's shop. Albrecht's Croft recreated the original furnishings of a rich croft consisting of a residential house, barn, farm buildings and a gate building. Next to the buildings, an agro-reserve is maintained - in which old cultivated plant varieties are grown..

In the Museum of Folk Culture you can visit the above-mentioned crofts as well as participate in cyclical folklorist events the number of which increases every consecutive year. Among them, you can find, for example, Asparagus Festival (Szparagowe Święto), Kids' Crofts (Dziecięce Zagrody), The Pomeranian Festival of Herbs (Pomorskie Święto Ziół), The Festival of Honey (Święto Miodu) or the Christmas Fair. The Museum also presents a rich educational offer. Detailed information concerning dates of those events can be found at the website: [www.swolowo.pl](http://www.swolowo.pl)
